

Julia Hasty

PHD MATERIALS SCIENTIST · CLEAN ENERGY & WATER SYSTEMS

Albany, CA

540.798.2312 | julia.hasty@gmail.com | dr-jay

PhD materials scientist · 900+ clean energy deployments in 35+ countries · 2018 Water Abundance XPrize winner · NSF PI

Experience

Resilient Markets

MANAGING PARTNER

- Microgrid assessments (biomass, solar, battery); policy research with MaxETA for Puerto Rico Energy Bureau

Albany, CA

2020 – Present

10Power

TECHNICAL LEAD

- Published 2024 Eklutna Energy Plan; tribal microgrid grants and integrated energy design

San Francisco, CA

2020 – Present

Corvidae, LLC

FOUNDER

- 15+ clean-tech clients; Puerto Rico 25-building microgrid; co-founded ACEPR cooperatives accelerator

Oakland, CA

2017 – 2020

SkySource

SYSTEMS ENGINEER — 2018 WATER ABUNDANCE XPRIZE WINNER

- Biomass-powered atmospheric water system: 2,000 L/day at ~2¢/L

Berkeley, CA

2018

ALL Power Labs

ENGINEERING DIRECTOR

- Led 15 engineers; 900+ deployments in 35+ countries; NSF PI; USAID project (250 homes, Liberia)

Berkeley, CA

2009 – 2017

CPWater Tech, Box Power, NanoSulf, Portland Biodiesel, Red Cross NAT Lab, Stony Brook

EARLIER ROLES

2007 – 2021

Skills

Laboratory	NMR, FTIR, UV-VIS, HPLC, PCR, GC-MS, SEM, TEM, EDS
Engineering	Gasification (10–150 kW), microgrids, water systems, automation
Domain	Biomass, biochar, energy policy, grant writing, tribal energy programs
Tools	Python, $\LaTeX$, Solidworks, ChemCAD, Fusion360

Education

Stony Brook University

PH.D., MATERIALS SCIENCE & ENGINEERING

NY

Radford University

B.S., CHEMISTRY

VA

Honors & Patents

SkySource **XPrize Winner**, Water Abundance 2018

2017 **Patents**, US 8,829,695 & 9,476,352

Grants, NSF PI; USAID Liberia; NYS & NSF (CPWater)
